kushalgoyal011@gmail.com | +91 8512003021 | Kirari, Delhi, India | [Linkedin](#) | [Github](#)

SUMMARY

Full Stack Developer with practical experience in building full-stack web applications that are responsive, user-friendly, and scalable. Skilled in developing real-time features, integrating APIs, and writing clean, maintainable code. Strong understanding of modern JavaScript technologies and a passion for solving problems through efficient solutions. Experienced in deploying applications using platforms like Netlify, Render, and MongoDB Atlas. Committed to contributing to meaningful tech projects and continuously growing as a full-stack developer.

SKILLS

Languages: HTML5, CSS3, JavaScript, Java, Python

Web Technologies: React.js, Node.js, Express.js, RESTful APIs

Database: MongoDB, Chrome Local Storage

Tools & Platforms: Git, GitHub, VS Code, Postman

Deployment: Netlify, Render, MongoDB Atlas

PROJECTS

KnowMyRights - GPT-Integrated Legal Awareness Platform (Live Link: [KnowMyRights](#)) Jun 2025 - Present

- Developed a full-stack legal awareness platform using **React**, **Express.js**, and **MongoDB**, combining dynamic GPT-based legal Q&A with structured, database-driven rights summaries.
- Engineered **LawBot**, a conversational assistant that answers legal questions in plain language and falls back to AI when data is unavailable.
- Implemented real-time **search** and **manual refresh** capabilities, with official source link integration for legal accuracy and up-to-date information.
- Created a **mobile-first**, fully responsive UI with optimized layout, search UX, and consistent styling across Rights, State Laws, and LawBot features.

ChatRealm - Web-Based Chat Application (Live Link: [ChatRealm](#)) Apr 2025 - Jun 2025

- Developed a clean and modular chat platform using **React**, **Express.js**, and **MongoDB**, featuring secure user authentication and protected routes.
- Implemented a user-friendly interface with support for **personalized chat names**, **message history**, and organized conversation management.
- Structured the backend with a focus on maintainability, using RESTful APIs and MVC architecture to ensure clean separation of concerns.

Portfolio Website - Personal Developer Portfolio (Live Link: [Kushal Goyal | Portfolio](#)) May 2025 - Jun 2025

- Designed and developed a single-page portfolio using React, with smooth section transitions and scroll-based animations.
- Showcases key projects, skills, and personal introduction through a clean, organized layout.
- Features include a **typewriter-style intro**, animated navigation, and a **responsive design** for different screen sizes.

EDUCATION

Jagan Institute of Management Studies (GGSIPU), New Delhi, India
Master of Computer Applications

2024 - Present

Ram Lal Anand College (University of Delhi), Delhi, India
Bachelor of Science (Hons.) in Computer Science (**8.811 CGPA**)

2021 - 2024

ACHIEVEMENTS

- Participated in “**Code Blitz Hackathon 2024**” organized by **JIMS, Rohini (Sector-5)**, contributing to innovative software solutions in a team-based coding environment.
- Participated in “**Kavach Hackathon 2023**” organized by the Ministry of Education’s Innovation Cell and AICTE, working on the problem statement titled “**RAM Dump Collection Tool.**”
